I just wanted to thank you for your efforts that resulted in the ultimate resolution of this case. I can say without hesitation that your ethics and hard work were second to none and it ultimately benefited your client.  
I have rarely litigated against an adversary who is more concerned about maintaining the highest ethical standards throughout the pendency of the case. You have certainly cemented your reputation on my side of the fence as a worthy opponent who can be trusted to fiercely represent his client's interests while maintaining the highest ideals of this profession.
